NETWORKS, SYMMETRIES & DARWIN'S FINCHES

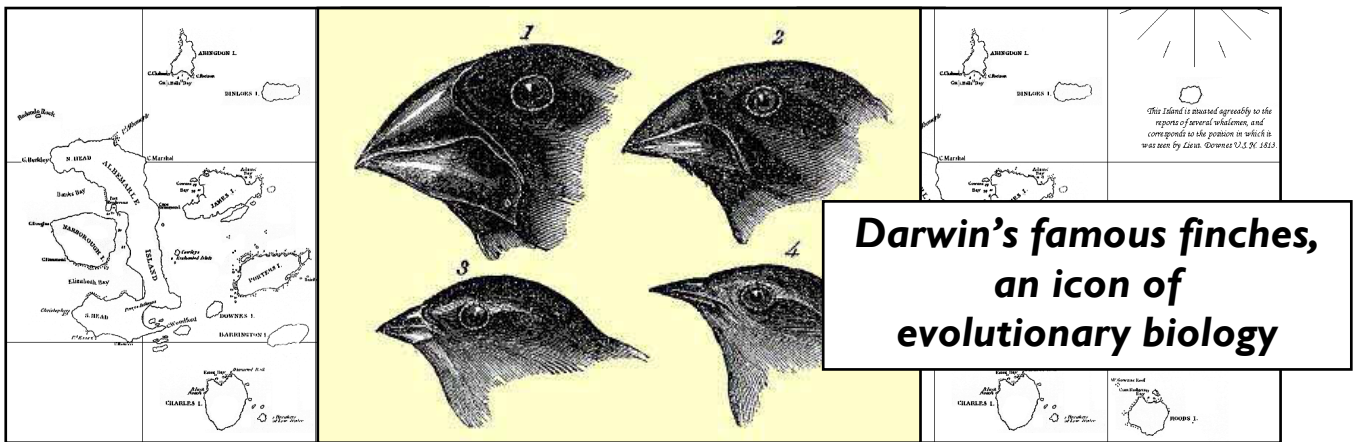

with

PROF IAN STEWART FRS

University of Warwick

Mathematician and Science Writer

Prof Stewart will describe several mathematical models for evolution and will explore the unexpected genetics of the Galapagos Finches... illustrated with photographs from his recent visit to the Galapagos Islands.

**Darwin's famous finches,
an icon of
evolutionary biology**

**Prof Stewart's Books include "Why Beauty is Truth", "Taming the Infinite"
"Professor Stewart's Hoard of Mathematical Treasures"**

Wednesday 17 March, 2010

7.00 pm at St Mary Redcliffe Church

everyone welcome – admission £1 at door for talk

**St Mary Redcliffe Church is close to Bristol Temple Meads Station;
a public car park is opposite on Redcliffe Way.**
